CHAIRMAN'S DESK

MESCO PUBLIC SCHOOL's primary aim is to offer the best environment necessary for all-round growth of a student. We aim to teach and inculcate values encompassing all modern, moral conventions. We pledge to develop our students' character in a manner which is built on the belief of integration and not of isolation.

MESCO PUBLIC SCHOOL's primary aim is to offer the best environment necessary for all-round growth of a student. We aim to teach and inculcate values encompassing all modern, moral conventions. We pledge to develop our students' character in a manner which is built on the belief of integration and not of isolation.

The school also brings the experience of efficacious endeavours like New Horizon School, New Delhi to you so that our mutual dream of seeing today's children transforming into future leaders and professionals becomes a reality.

We believe that no child should be denied quality education and avenues of all-round development due to limitations like inadequate infrastructure, resource provision, etc. Therefore, MESCO PUBLIC SCHOOL offers all such provisions in a manner which streams into a flow and facilitates the requisite developmental plan of a child.

The management of MESCO PUBLIC SCHOOL includes educationists, qualified Social Workers, MBAs Chartered Accountants, Doctors, Sociologists and other elite professionals and activists who have worked very hard to develop an ultra-modern and thriving institute in your region.

I urge upon the parents to show interest in their child's school life. With your continual interest in their education, they will feel motivated, and this will help us provide your children with an all-round education and their development into responsible citizens.

Chairman

OUR JOURNEY SO FAR

The school has been awarded with CBSE approvals and has been many other accolades. The school infrastructure and resources include specialties like a multi-sports complex, a super library, new Pre-primary infrastructure including Mini Zoo, Mini park, AC classrooms, Ball room, fully equipped labs, smart classes, round the clock surveillance of the entire complex by CCTV cameras, language labs etc and many more. Over the years, together we have witnessed character building, academic excellence, and appreciation of a scientific & innovative temperament and many more achievements of our children which have been acknowledged by many internal and external stakeholders alike. It is with all-round support and the trust in that the combined efforts are yielding remarkable results.

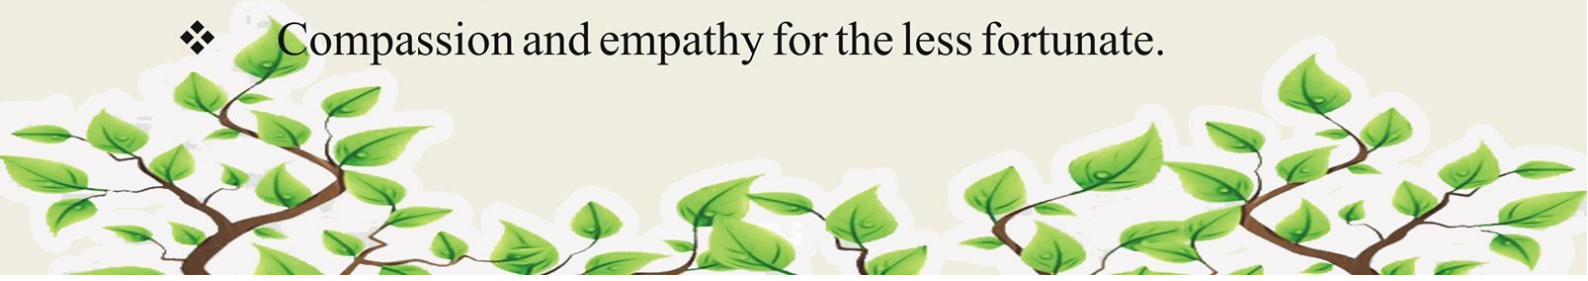

OUR ETHOS AND BELIEFS

We feel strongly that everything we do at MESCO is underpinned by our ethos and values and is intended to help students flourish and thrive. We believe in -

- ❖ Respect for Almighty's creation and concern for the environment.
- ❖ Development of a scientific approach and the desire to know.
- ❖ Appreciation of democracy and passion for national integration.
- ❖ Discipline, integrity and honesty in behavior.
- ❖ Compassion and empathy for the less fortunate.

OUR CURRICULUM

The school is affiliated with CBSE School no. 81852. Therefore, all the curricular requisites of CBSE are fulfilled at MPS. Further, the focus areas of learning and development of the students are based on the following principles:

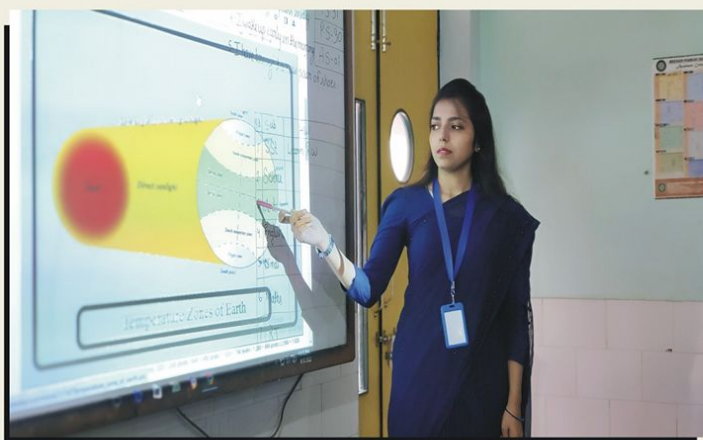

- ✦ Appropriate approach of academic activities to provide stress free, child centered and holistic education.
- ❖ Innovate methods to achieve academic excellence in conformity with psychological, pedagogical and social principles.
- ❖ Plans to achieve quality benchmarks in school education consistent with the National goals.
- ❖ Innovations in teaching-learning methodologies by devising students friendly and students-centered paradigms
- ❖ Documenting the progress of students in a teacher - student friendly way.
- ❖ It is pertinent to note that to meet the modern demands the school's medium of instruction is English and is not limited to class/ teaching instruction, but is applicable throughout the campus and day to day affairs.

The school is divided into 4 distinct wings according to National Education Policy (NEP):

- ❖ **Foundation Stage (3-8 yrs):** Focus play based and activity based.
- ❖ **Preparatory Stage (8-11 yrs):** Focus on developing basic subject, specific knowledge and skills.
- ❖ **Middle Stage (11 to 14 yrs):** Focus on integrated and interdisciplinary

SPECIAL OFFERING

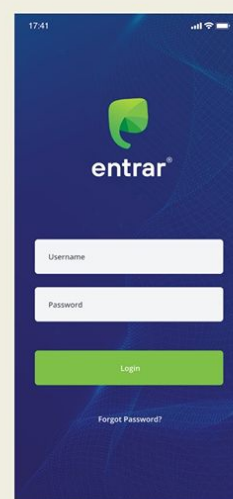

Smart Class - A Successful Venture:

MESCO Public School, in its never ending effort to improve the teaching and learning processes, has introduced the concept of Smart Classes for Pre-Primary to Senior Secondary School. Smart Classes integrate traditional and innovative way of learning through the new technologically advanced methodology of teaching.

Home work through Entrar Software

This method of communication has become popular and we are also using it, as it is the easiest way for communication.

We are sending homework and assignment on parents portal

Science Labs:

Science labs are used for conducting experiments and demonstrations in physics, chemistry and biology. These labs have specialized equipment and tools that enable students to learn through experimentation and observation.

Physics Lab

Chemistry Lab

Biology Lab

Language Lab:

Language labs are designed to help students to learn foreign languages through interactive software and multimedia resources. These labs provide a controlled environment for students to practice their language skills through conversation and listening exercises.

Computer Labs:

Computer labs are equipped with computers and software that enable students to learn computer skills and programming languages. These labs are also used for internet research and online learning.

Arts Lab:

Arts lab are used for teaching visual arts and crafts. These labs are equipped with supplies such as paints, brushes, and drawing materials to provide students with hands-on learning experiences in art.

Overall, labs play a crucial role in a school's curriculum by providing students with hands-on learning experiences that enable them to explore and understand different subjects in a controlled environment.

Scholarship:

We provide scholarship to the meritorious students.

PRE-PRIMARY FACILITIES

Swings:

Swings promote fitness and whole-body awareness through actions such as leg pumping, and they offer opportunities for children to engage in sensory rich experiences that address rhythmical movement and stimulate the vestibular system-critical in developing balance and coordination.

Mini Zoo:

The thing about MPS that's so unique is the fact that we do have the Mini Zoo and we do have live species. The Mini Zoo's diverse set of animals allows us to host various educational animal shows. General shows incorporate birds, mammals and reptiles.

Restaurant

Every child needs to learn how to act appropriately in social environments, and restaurant are a good practice ground for them to learn quite skills, manners and how to behave in social situations.

Library

A children's library is an open space for accessing not only data and information but also high-quality digital resources. By providing these resources to all the children in the community. Children who value books are motivated to read on their own, and encourage others to do the same too.

OTHER FACILITIES

Secure environment:

CCTV cameras have been installed and a diligent monitoring system has been put in place in the school premises to ensure safe, secure and healthy learning environment for the children and the staff.

SMS Service:

The School uses an effective SMS service to establish a strong communication link with parents. With SMS alerts, parents are regularly updated about attendance of their ward, changes in time schedule and activities which are organized by the school.

Faculty Meetings:

Teachers of each faculty get together regularly with their HODs to discuss new trends in education, behavioral sciences of children and to prepare detailed reports of the students. These meetings of subject teachers aim at reviewing the work done and to coordinate the content coverage, standard and the assignments given in different classes, both horizontally as well as vertically.

Workshops & Training Programs (for faculty)

Workshops for teachers conducted by experts for In-Service Training and Orientation Programmes are regular features. The programs are held to keep abreast of pedagogy, Assessments, latest technology, communication skills and personality development to contribute towards the professional growth of the teachers.

Medical Health Check Up

All the students have to go through medical checkups at regular intervals organized regularly by MPS within the campus. An infirmary with necessary facilities exists in the school for First-Aid.

Rewards & Achievements

Students excelling in Academics and various co-curricular activities are felicitated and rewarded through Merit Certificates.

BEYOND THE CLASSROOM- EXTRA CURRICULAR ACTIVITY

To help children achieve their full potential, we encourage students to participate in the following extra-curricular activities.

❖ *Sports & Physical Education -*
